Imagility's **Immigration** Wizard

The Imagility Immigration Wizard is an advanced, user-friendly tool designed to streamline the immigration process for law firms, corporations, and immigration professionals. Imagility's Immigration Wizard revolutionizes the way petitions are built with its intuitive, automated 5-step process.

www.imagility.co

Designed for petitioners and attorneys, the Wizard streamlines the creation of H-1B petitions, ensuring accuracy and efficiency. By automating and simplifying complex procedures, the Immigration Wizard helps save time, reduce errors, and improve overall efficiency.

Imagility's Immigration Wizard is designed to meet the unique needs of immigration professionals, offering a powerful and flexible solution that adapts to your workflow. Whether you're a solo practitioner or part of a large firm, the Immigration Wizard helps you build petitions in less than 10 minutes! Here's how it works.
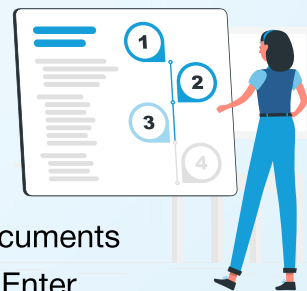

Creating a **New Task**

Start building petitions effortlessly by creating tasks through the dashboard or tasks menu. The Wizard guides you through each step, ensuring all necessary information is captured.

Steps to **Build a Petition**

1 Individual Details

Quickly upload important documents like passports and resumes. Enter personal details, education, and work experience. The system pre-populates data for existing profiles to save time.

2 OCR for Extracting Data

The powerful OCR (Optical Character Recognition) feature can extract data from uploaded documents and populate fields quickly and accurately.

3 SOC Code and LCA

Select the appropriate SOC code and LCA by entering position details. Use the Imagility library or generate job duties with tools like ONET and ChatGPT.

4 Job Description

Define job duties, position details, and work location. Add multiple locations and related documents with ease

5 USCIS Content

Manage mailing addresses, fee calculations, and processing information. Generate system forms and include signatures if needed.

6 Generate Letters

Create cover and support letters using system templates or upload your own. Use pre-defined templates for a professional touch.

Analyze, Review, and Submit

- **Analyze Petition:** Use the analyzer to check the petition against nine criteria. Identify and fix gaps before final submission.
- **Review Petition:** Notify reviewers and incorporate their feedback. Update the review status and finalize the petition.
- **Submit Petition:** Track and upload acknowledgment and receipt details post-submission.

Benefits

- **Efficiency:** Automate tedious tasks, saving valuable time.
- **Accuracy:** Ensure all details are correct, reducing errors.
- **Compliance:** Stay compliant with automated checks and balances.
- **User-Friendly:** Intuitive interface simplifies the petition-building process.

Imagility's Immigration Wizard is designed to make petition building efficient, accurate, and compliant. By automating critical steps and providing detailed guidance, it ensures that attorneys and petitioners can focus on what truly matters: their clients.
