

Imagility Immigration Datasheet

Imagility is a multi-sided marketplace helping individuals, employers, and attorneys collaboratively perform end-to-end immigration on the cloud. This provides a quantum leap in collaboration, transparency, efficiency, and scaling. Employers finally have a way to onboard and retain critical foreign talent, while attorneys can develop a fully customizable and automated digital immigration law office and beneficiaries experience complete transparency and a clear path ahead.

Key Features

Unparalleled end to end immigration platform and technology with detailed petition building timelines and workflows, smart document checklists, petition analysis, template letter building, receipts, notifications, alerts and more.

Making immigration simple and easy: Simplifying convoluted immigration processes into smooth workflows that are intuitive to the user. We limit time-intensive immigration processes, delay in hiring cycles, excessive use of HR resources, and exposure to legal risk.

Application Tracking - Users can track the status of their applications in real-time and receive alerts about milestones or required actions.

Customization – Users can tailor the product to fit in existing workflows and other needs including white labelling seamlessly.

Automation – provides a range of automation tools including case automation, task management, and document review to help streamline the work of attorneys and increase operational efficiency.

Integration - Imagility's integrations can optimize the visa application process by streamlining workflow and reducing workload.

Extensive reporting and analytics - Forecasting made easy and tracking and managing immigration with standard and custom reports.

Quick and effective client onboarding to migrate and on the go user adoption due to intuitive user experience and design used to build Imagility.

Fully digital - Securely store and access sensitive files and documents digitally, enable digital signatures, get notification and alerts instantly, etc., all remotely.

Imagility is AI-enabled with AI / machine learning capabilities focused around analyzing past visa applications to deliver accurate recommendations to users and further increase efficiency. Imagility uniquely provides a fully customizable process workflow, advanced automation tools, and real-time updates to the platform.
