

Imagility Bulk Upload: Streamlining H-1B Petition Management

Quick

Automated

Reliable

Manually entering H-1B petition details can be tedious and time-consuming. Imagility's Bulk Upload feature streamlines this by enabling companies and law firms to upload multiple beneficiary documents from Google Drive, parse and extract data into templates, and create H-1B petitions in bulk.

Key Features of Imagility's Bulk Upload

Google Drive Integration

Simply enter the Google Drive path where multiple beneficiary documents have been uploaded.

Bulk Petition Management

Upload data-populated templates to create bulk petitions at once. Generate multiple petitions with a click of a button, minimizing manual effort and boosting productivity.

OCR-enabled Data Parsing

Beneficiary documents are parsed and data is automatically populated into templates using OCR technology, saving time and reducing errors.

Upload Summary

View a summary of successful and failed uploads, with real-time feedback to fix issues quickly.

How It Works

- 1 Enter the Google Drive file path where you have placed beneficiary documents..
- 2 Documents are parsed and the extracted data is auto-filled into templates.
- 3 Verify the populated data in template and upload it on Imagility.
- 4 Monitor the upload summary for success and any issues.
- 5 All uploaded beneficiaries are listed with corresponding petition details.

Why Imagility?

Efficiency & Accuracy

Automate tasks, reduce errors, and populate templates faster.

Simplicity

Upload, review, and track petitions easily from one platform.
